Angels Are Hard To Find-Hank Williams Jr.

```
C                          F             C
Lord I'm singing you this message up to heaven
                         F            C
Asking you to send me down another angel

I've been looking for a long time
        F
For someone to get her off my mind
             C     G7                 C
But you know Lord  angels are hard to find

           F          A#                 C
I want an angel with arms and not with wings
                          G7
Someone that I can call my darling
            C
If you can think of someone to fit my description
     F                            C
Lord could you help me one more time
F           C     G7                  C
But I know Lord  angels are hard to find

                           F             C
It's my fault I lost the first one you sent to me
                            F                 C
I didn't know till she was gone how much she meant to me

She loved me but I was blind
              F
I bet I do a whole lot better next time
            C     G7                  C
But I know Lord  angels are hard to find

repeat #2

F                          C     G7                  C
One like that right there Lord  angels are hard to find
```
