A Broken Heart And A Glass Of Beer-Hank Thompson
Author:Alan Flatt

```
C               F              C
A broken heart  and a glass of beer
                         G7
Is all I have before me here
     C
I've lived the life I'm rowdy and rough
F                    C
But now at last I've got enough
               G7                    C
With a broken heart  and a glass of beer

                  F            C
I've had my fun  there was no fear
                               G7
Just roaming around year after year
    C
I'm wild and wooly lord full of fleas
F                   C
But I ended up down on my knees
               G7                    C
With a broken heart  and a glass of beer

                  F                 C
My baby is gone  and I don't know where
                             G7
I'm a lonely soul deep in despair
      C
I can kick my dog off the roof of my cab
F                     C
But oddly enough right where I'm at
               G7                    C
With a broken heart  and a glass of beer

                    F                  C
My Ford won't run  I've stripped her gears
                             G7
My cow's been dry for over a year
   C
My mailman died my phone won't ring
F                    C
My landlord kicked me out in rain
               G7                    C
With a broken heart  and a glass of beer

             G7                    C
I got broken heart  lord a glass of beer
```
