A Broken Hearted Me-Anne Murray
Author:Randy Goodrum

```
C
Every now and then I cry
                    C7                  F
Every night you keep staying on my mind
       Em              Am
All my friends say I'll survive
C             D7
It just takes time

Em                Am            Dm                G7
But I don't think time is gonna heal this broken heart
Em              Am                  Dm          E7
No I don't see how it can if it's broken all apart
Am        C                              D7
A million miracles could never stop the pain
   Dm          C      F        G7
Or put all the pieces together again

Em               Am            Dm               G7
No I don't think time is gonna heal this broken heart
Em              Am               Dm           E7
No I don't see how it can while we are still apart
Am           C                                    D7   F
And when you hear this song I hope that you will see
     Em          Am     Dm     G7      C
That time won't heal a broken hearted me

Every day is just the same
                        C7                    F
Playing games different lovers different names
          Em          Am
They keep saying I'll survive
C             D7
It just takes time
```
