I'm Glad You're Better-Jim Reeves

```
G             D7        G                    C
I walk by the same spot where we walked that night
  D7              G          D7              G
I remembered your kisses and tears dimmed my sight
                D7                   G
I'm glad you're better I'm glad you're better

                    D7            G                        C
I talked with that old friend he said you're blue as can be
D7        G                 D7            G
Now I can tell you it's the same way with me
                D7                   G
I'm glad you're better I'm glad you're better

  C          D7           G
I know we'll never be the same
   D7                              G
We both stood much too close to the flame
      D7                        G
How I cry at the sound of your name
                D7                       G
Don't think I'll make it I'm glad you're better
```
