I've Got Mexico-Eddie Raven
Author: Edward Futch and Frank Myers

```
G                          Am
I just got tired of that same old job
D7                              G
Tired of fighting that freeway mob
                           Am
I bet you never thought I'd really go
D7                        G
I'd never get as far as Mexico

                                 Am
I've even learned to speak the language some
D7                                    G
Down on the beach drinking coke and rum
                                 Am
You wouldn't know me with this golden glow
D7              G
Soaking sun in Mexico

                           Am
I'm eating right and I'm living good
D7                   G
Doing everything I said I would
Em                          Am
I should have left a long time ago
D7                    G
Who needs you I got Mexico

                          Am
Through it all nothings really changed
D7                               G
No matter what honey that's a shame
                              Am
I still love you that's the way it goes
D7                       G
He's got you I've got Mexico
```

Repeat #3
