If You're Happy Then I'm Satisfied-Billy Walker
Author:Marvin Rainwater and Glenn Reeves

```
C                                          G7
Now you've found somebody who can make you happy
                                          C
That's the only reason I have stepped aside
                                          G7
You're the only thing in life that really matters
                                          C
If you're happy dear then I am satisfied

        F                          C
Just as long as the sun comes up tomorrow
    G7                             C
And finds someone you love by your side
                                          G7
That's the only thing in life that really matters
                                          C
If you're happy dear then I am satisfied
```

Repeat #2
