Just Ask Your Heart-Sonny James
Author:Sonny James and John Skye

```
G             D7
Just ask your heart (darling ask your heart)
            G
And it will tell you (it will tell you)
         D7
What my heart (darling what my heart)
              G
Wants you to know (wants you to know)

          D7
Ask your heart (darling ask your heart)
            G
And it will tell you (it will tell you)
         D7                                  G  D7
It will tell you that I love you love you so

           G
There's no reason for your doubting
                    D7
When I'm away from home

There's not always time for writing
                           G
But you should never feel alone

When you're lonesome for me darling
        G7                    C
And you think the tears will start
                     G
If you doubt that I still love you
     D7                G
Then darling ask your heart

                D7
(Just ask your heart) darling ask your heart
              G
(And it will tell you) it will tell you
          D7
(What my heart) darling what my heart
                G
(wants you to know) wants you to know

          D7
Ask your heart (darling ask your heart)
            G
And it will tell you (it will tell you)
         D7                                  G
It will tell you that I love you love you so
```
