Preparations To Be Blue-Lefty Frizzell
Author:Del Reeves and Elen Reeves

```
C                F         C
I got out my old teardrops tonight
F           C                 G7
Just to try them on again for size
  C                             F
I know that I'll be needing them before too long
       C           G7            C
So I'm making preparations to be blue

F                          C
Making preparations to be blue
F                             G7
Getting ready for when I lose you
C                           F
Taking inventory of what's left of me and you
       C           G7            C
So I'm making preparations to be blue

                         F          C
I'm locked in all your memories inside my heart
F               C                        G7
One by one I'll take 'em out when we're apart
C                               F
Seeing you with him I knew my heartaches were old friends
       C           G7            C
So I'm making preparations to be blue

F                          C
Making preparations to be blue
F                             G7
Getting ready for when I lose you
C                           F
Taking inventory of what's left of me and you
        C           G7            F  C
Yes I'm making preparations to be b-lue
```
