You're The One-The Oak Ridge Boys
Author:Champion Jack Dupree, Carly Simon, David Clayton-Thomas
Bob Morrison, Rock Killough, A. Smith, W. D. Smith

```
G                      C
Many's the time I have looked in the water
    G                    D7
And had no reflection to show
G                      C
Many's the time I have stood at the crossroads
G          D7          G
Not knowing which way to go

                        C
Many's the time someone lay close beside me
    G                   D7
And I don't remember her name
G                          C
They'll say that I'm just a smile and a moment
G            D7         G
But that was before you came

          C
You're the one in a million
          G
You're the one you're the one
          C                  G
You're the one in a million I see
          C
You're the one in a million
          G
You're the one you're the one
          C        D7          G
You're the one in a million for me

                        C
All of the others were places to go to
     G               D7
When I had nowhere to sleep
G               C
I never made any promises to them
G           D7          G
None they'd expect me to keep
```

Repeat #3 x2
