A Million Years Or So-Roger Miller

```
C               G7      C
I'm not worried cause I know
     F               G7               C
I'll forget you in a million years or so
              F     C
I'll miss you but I know
        F               G7               C
I won't miss you but a million years or so

                F         C
How I loved you loved you so
                                D7               G7
How I lost you maybe time in time will let me know
            C       G7      C
But I'm not worried cause I know
     F               G7               C
I'll forget you in a million years or so

                F         C
How I loved you loved you so
                                D7               G7
How I lost you maybe time in time will let me know
            C       G7      C
But I'm not worried cause I know
     F               G7               C
I'll forget you in a million years or so
```
