From Adam's side God formed his bride beautiful as could be
                  Em           F                          G7
And standing here beside you I see He's done the same for me
F                  G7               C                   F
I've waited such a long time and I can't believe it's true
     C                G7                F            C
That by my side God's placed a bride as beautiful as you

                                              F                        C
There were times when my impatience heart didn't want to wait for you
                            Em                F                    G7
It just seemed like you would never come and I didn't know what to do
F                 G7                  C              F
I almost gave up waiting and started looking on my own
    C                     G7                     F                     C
But then the Lord brought you to me flesh of my flesh and bone of my bone

I promise that you will always be a treasure in my heart
                       Em            F           G7
To have and to hold so tenderly till death do we part
F                    G7              C            F
And with this ring I pledge to you a never ending love
     C               G7                        F             C
That will carry you through all we do till we reach our home above
