Ages And Ages Ago-Jan Howard
Author:Gene Autry, Fred Rose, Ray Whitley

```
C   G7            C
I remember when I made you cry
G7            C
Ages and ages ago
          G7                C
I'll never blame you for our last goodbye
G7            C
Ages and ages ago

F                      C
Someone came along and took my place
    D7                    G7
How wrong I was to let you go
    C         G7            C
And though it happened only yesterday
         G7            C
It seems ages and ages ago

F                      C
Something told me when you walked away
     D7                          G7
That time would make me miss you so
    C         G7            C
And though it happened only yesterday
         G7            C
It seems ages and ages ago
```
