All Night Long-Jerry Lee Lewis
Author:Don Chapel
[3/4 time]

```
C                       F
Move closer to me don't slip out of my arms
              C            G7
My emotions tonight are so strong
    C                 F
You say your my woman all through the day
                 G7           C
Now keep it that way all night long

      F
Don't love me then tell me that I've got to leave
     D7                      G7
This hunger for you will go on
C                             F
You tell me that you love me all through the day
                 G7           C
Now keep it that way all night long

                        F
Move closer and let me feel the taste of your lips
                  C          G7
You've made me so weak for so long
    C                                F
Now don't tell me that you want me all through the day
                  G7           C
Then hurt me this way all night long
```
