G                       C
Move closer to me don't slip out of my arms
           G              D7
My emotions tonight are so strong
    G                  C
You say I'm your woman all through the day
             D7              G
Then leave me alone all night long

C
When I'm in your arms I'm too weak to be strong
A7                      D7
Whatever we do can't be wrong
      G                   C
Don't tell me you love me all through the day
             D7              G
Then leave me alone all night long

                            C
Move closer let me feel the touch of your lips
                 G           D7
You've made me so weak for so long
      G                   C
Don't tell me you love me all through the day
             D7              G
Then leave me alone all night long
