All Of A Sudden-Wynn Stewart
Author:Gene Price

```
C
For a while I was happy for a while I had you
                                    C7
The thought never once crossed my mind
     F                    C
That you'd walked away with the only world I knew
    G7                   C
And leave just a memory behind

C7                          F
But all of a sudden it's a lonely world
D7                  G7
All of a sudden I'm alone
C7                  F
All of a sudden I miss you girl
G7                            C
Cause all of a sudden you're gone

I don't know what happened to drive you away
                                   C7
And leave all these heartaches behind
  F                             C
I just hope you're happy and I pray that your world
G7                   C
Is never as empty as mine
