All Right-Faron Young

```
C          F           C
All right so I am to blame
             D7                    G7
All right I brought on all this shame
F
You've told me now a million times

You just won't leave the past behind
   C             G7                  C
So all right my dear I'll set you free

F
The love you said you had for me
C
Could not have been to strong
D7
If you can't forgive me now
    G7
For doing just one wrong

   C          F                    C
So all right though it hurts me so
     F             C
I'll pay the cost your love I've lost
  G7                   C
I guess it's time to go

              F                        C
So all right I've cheated and I've lied
  F                     C
I broke each vow we're parting now
G7                           C
But it will have to be all right
```
