All The Tea In China-Buck Owens

```
C                               F                 C
I always start to singin' every time you pull the string in
    F              C               G7
I'm standin' by to just be standin' by
      C                        F                C
Yes I say I've had enough and this time I'm not bluffin'
        F              C      G7             C
But for all the tea in China  I know it's a lie

                                        F              C
And I said I wouldn't hang around for all the tea in China
    F              C           G7
For all the tea in China and my soul
      C                     F               C
Yes I say I'm gonna pack up this time gonna give up
        F              C      G7      C
But for all the tea in China  I can't go

                          F                   C
The palm of your hand now that's where you've got me
      F          C          G7
That's where I'm longin' to be
C                F            C
Try as I may now I just can't stop me
    F              C      G7                 C
For all the tea in China  I hang on desperately

Repeat #2

    F              C      G7      C
For all the tea in China  I can't go
```
