Alone-Rick Nelson

```
C    F              C       F            C
I've waited for the sunrise but it never came
F                 C      F       G7             C
I can see all the people somehow they're not the same
F                   G7           F       G7      F             C
They're lost in the dreams in the schemes that my eyes couldn't see
F          G7        F     G7     F                  G7
The wishing wells the small hotels are what you left me

C   F               C        F                  C
You said goodbye to me today you left me on my own
F                     C          F            G7    C
Someone's gotta help me find my way I'm standing here alone
F              G7       F          G7           F              C
I said please stay you laughed and walked away it's all over now
F          G7         F         G7       F                     G7
I can't believe it I can't conceive it that you're gone somehow

F           G7        F      G7     F                   C
The smiling faces the warm embraces they're all in the past
F           G7        F    G7   F                G7
Your sweet caress my happiness it just couldn't last
C      F             C           F             G7      C
People say that I am just a fool that I should go back home
       F                 C          F        G7       C
I just smile and say I'm doing fine I'm glad that I'm alone
  F          G7      C    F      G7       C
I guess I'll go back home I'll always be alone
```
