Along The Santa Fe Trail-Jimmy Wakely
Author:Al Dubin, Edwina Coolidge, Will Grosz

```
C                              D7
Angels come to paint the desert nightly
                           F
When the moon is gleaming brightly
         G7       C
Along the Santa Fe Trail

                                  D7
Stardust scattered all along the highway
                     F
On a rainbow colored skyway
         G7       C
Along the Santa Fe Trail

  F                   Fm
Beside you I'm riding every hill and dale
              C                     D7
While shadows hide you just like a pretty purple veil
G7
There by hangs a tail

     C                                  D7
I've found you and the mountains that surround you
                      F
Are the walls I built around you
         G7       C
Along the Santa Fe Trail
```

Repeat #2,4
