Always Loving You-Hank Williams Jr.
Author:Steve Young

```
C         F      C
The even--ing is lone-some babe
        A#      F        C
And the dead of night is cruel
       F              C
And I  recall all the things we done
             A#     F      C
You know I'm always loving you

           F               C
Some-times I think that my train done gone
        A#      F           C
The way all old things must do
       F              C
Yet I  still wait for its return
          A#      F        C
Just like I still wait for you

    F        G7         C
And I  still h-ear that old whippoorwill
             F           G7        C
I've seen the gh-ost of a mid-night train
    F        G7       F
And I  still l-ove to w-alk alone
           C          A#             F
Down by the o-ld Union Station in the rain

       F               C
Now I  don't know where you a-re tonight
      A#       F          C
But I feel you across the miles
         F                    C
And I'm  still standing there in-side your mind
     A#           F       C
Just be-hind your pret-ty smile

    F               G7         C
And ba-be can't you h-ear that old whippoorwill
                  F            G7        C
Have you seen the gh-ost on the mid-night tr-ain
    F          G7       F
Do y-ou st-ill l-ove to go  alone
           C          A#             F
Down by the o-ld Union Station in the rain

           C               A#             F
Down by the o-ld Montgomery Station in the rain
