Amigo's guitar-Kitty Wells
Author:John D. Loudermilk, Roy Botkin, Kitty Wells

```
G D7                          G
Tonight they're singing in DeVilla
D7                            G
Tomorrow you'll be gone so far
D7                           G
Hold me close and say you love me
      D7                      G
While amigo plays his blue guitar

    D7                       G
Aye yi aye yi the moon is lonely
  D7                              G
Tomorrow I'll wonder where you are
   D7              G
Manana morning my darling
        D7               G
I'll be blue as amigo's guitar

     D7                              G
They hushed their singing in the DeVilla
D7                              G
All this quiet beneath the stars
D7                   G
Amigo plays Asta de Vago
   D7                   G
Up on his lonely blue guitar
```
