G                                  D7
Tonight while the snowflakes are falling
                          G
Here in my dreams I can see
                                  Am
The white cherry blossoms of Shima
      D7               G
Where I walk with Anna Marie

           Am
Anna Marie Anna Marie
D7                        G
My heart remembers and sighs
                         Am
C'est vouz c'est vouz me ames beacoup
D7               G
I miss you Anna Marie

                          D7
My love was pledged to another
                                 G
But I knew as I crossed the sea
                          Am
That I'd never love any other
   D7              G
As I love my Anna Marie
