Another Lonely Song-Tammy Wynette
Author:Norris Wilson, Billy Sherrill, Tammy Wynette

```
C     G7            Am      C
Time  won't ease my memory  it's killing me now
    F          Em
And Lord how I need him here
        Dm               G7
Just to feel him near and hear him breathing

C      G7             Am        C
Still  the night goes on and on another lonely song I'm singing
F               Em
Lord don't think bad of me
         Dm            G7
Don't get mad at me you know I'm weak

       Em                            A7      Em               A7
And it couldn't cause a whole lot of harm to be in somebody's arms
      Dm             Fm            C               G7
Cause she's in his I know she is I know she is but God I love him

C           G7          Am          C
And though  I shouldn't give a damn that's the way I am now
    F              Em
And Lord guess I'll stay this way
        Dm                G7
I can't play this way just because I'm lonely

C      G7             Am        C
Still  the night goes on and on another lonely song I'm singing
F              Em
Lord don't look down on me
      Dm               G7               C   G7   Am
Don't frown on me let's just keep talking
C
Another lonely song I'm singing
```
