Anything Your Heart Desires-Faron Young
Author:Billy Walker

```
C                    G7
Any-thing your heart desires
                       C
I would give to you my love
                          G7
All the world I'd like to give
                          C
And hand to you the stars above

                 G7                          C
I don't own the world or the stars in the blue
              D7                   G7
And all I can give is my love to you
    C                G7
Any-thing your heart desires
                          C
I would to give to you my love
```

Repeat #2

```
G7                        C
I would to give to you my love
```
