C                                F
There are places to go where the cold north wind blows
          C                                  G7
Mountain's tall and the seashore has its charm
        C                                F
But the best place for me darling where I want to be
      C      G7                C
Is anywhere  just inside your arms

   F                       C
Anywhere just inside your arms
                                        G7
To be with you is where I want to be
        C                        F
Just as long as you're there then darling I won't care
   C      G7                C
Anywhere  just inside your arms

                           F
If you like gay Paree Mexico or Tennessee
          C                        G7
I want to go please let me tag along
   C                               F
Anywhere in this land I just a wanna be your man
   C      G7                C
Anywhere  just inside your arms
```

Repeat #2

```
             G7                C
Yes anywhere just inside your arms
```
