**Are You Sure-Ray Price**
**Author:Willie Nelson and Bobby Emmons**

```
C
Oh look around you look down the bar from you
       F                      D7
At the lonely faces that you see
        G7                           C
Are you sure this is where you want to be

These are your friends but are they real friends
        F                    D7
Do they love you the same as me
        G7                           C
Are you sure this is where you want to be

    F                       C
You seem in such a hurry to live this kind of life
    D7                          G7
You caused so many tears and misery
C                                  F                D7
Look around you take a good look and tell me what you see
        G7                           C
Are you sure this is where you want to be

F                                    C
Don't let my tears persuade you I had hoped I wouldn't cry
    D7                             G7
But lately teardrops seem a part of me
C                                                F               D7
Oh look around you take a good look at all the lonely used to be's
        G7                                      C
Are you sure that this is where you want to be
```
