As Long As There's A Shadow-Roger Miller

```
C                                    D7
As long as there's a hill there's a valley
G7
Long as there's a valley then the river can flow free
   C                                 D7
As long as there's a sun there's a shadow
   G7                                                    C
As long as there's a shadow there's a place for you and me

       F                                C
Secret place to run and hide a secret love can't be denied
  D7                                      G7
A secret place that no one knows but you and me

And the lonely breeze that blows

C                                    D7
As long as there's a hill there's a valley
G7
