Before I Lose my Mind -Wanda Jackson
Author:Vic McAlpin and Roy Drusky

```
C                                    G7
You're telling everybody   that it's over
                                        C
That our love affair was just a waste of time
   F                                      C
To think   I thought   I walked in fields of clover
          F              G7           C
When your sweet love was never really mine

    F                                   C
I'm passing through the gate where the sun will never shine
    F                                C        G7
Too much I know too late how could I  be so blind
    C                          F
I'd like to forget you but I don't have that much time
         G7                                    C
I know I can't get over you before I lose my mind

    F                                   C
I'm passing through the gate where the sun will never shine
    F                                C        G7
Too much I know too late how could I  be so blind
    C                          F
I'd like to forget you but I don't have that much time
         G7                                    C
I know I can't get over you before I lose my mind
```
