C                               F                   C
If he brings you happiness then I wish you both the best
          F              G7              C
It's your happiness that matters most of all
G7        C                             F              C
But if he ever breaks your heart  if the teardrops ever start
F       C                 G7            C
I'll be there before the next teardrop falls

                                        F              C
Though it hurts to let you go darling I want you to know
          F                 G7              C
That I'll stand by you if ever you should call
G7     C              C7           F                 C
And if I should ever hear that he made you shed a tear
F       C                 G7            C
I'll be there before the next teardrop falls

         F        G7       C
I'll be there anytime you need me by your side
D7                G7
To dry away every teardrop that you cried
      C                         F               C
If he ever leaves you blue just remember I love you
F       C                 G7            C
I'll be there before the next teardrop falls
