C                          F                G7      C
My baby makes me proud   Lord  don't she make me proud
                                       F              G7
She never makes a scene by hanging all over me in crowd
      C                      F                 G7      C
Cause people like to talk  Lord  how they love to talk
                           Dm       F              G7          C
But when they turn out the lights I know she'll be leavin' with me

                  F      G7     C
And when we get behind closed doors
                    F    G7   C
Then she lets her hair hang down
                  F    Em    Dm
And she makes me glad I'm a man
                  G7   Dm             G7     C
Oh  no one knows what goes on behind closed doors

                           F              G7      C
My baby makes me smile  Lord  don't she make me smile
                              F                   G7
She's never far away or too tired to say I want you
      C              F           G7          C
She's always a lady  just like a lady should be
                           Dm     F              G7      C
But when they turn out the lights she's still a baby to me
