Believe Another's Lips-Sonny James
Author:Jimmie Loden

```
C                          C7
If you believe another's lips
    F
You know how much I care
G7
If they repeat the things I say
                           C
They'll tell you that I'm fair

For you must hear it from their lips
    F
How much I love you dear
G7
And how I try to live for you
                   C
Each day of every year

     F
I've even tried to write a song
   C
To tell you how I feel
                       A7
With words and music from the heart
D7                   G7
To prove my love is real

C
If anybody tells you
     F
That I'll always be true blue
G7
Then please believe another's lips
                       C
When they say I love you

    F
And though I may not equal
       C
All you think I ought to be
                     A7
I hope your loving heart will hold
  D7                 G7
A special place for me

C
I may not have the courage dear
   F
To say these things to you
G7
But please believe another's lips
                       C
When they say I love you
```
