Beside You-Kitty Wells
Author:Jim Anglin
[3/4 time]

```
G          C                          D7
Beside you forever I'm thankful each day
                          G
That you picked me for your own
            C                      D7
Your love and devotion changed my life
                           G
Without you I couldn't go on

           C                          D7
Beside you darling life's one happy dream
                           G
You brought a new world to my heart
            C                    D7
My life was empty before I met you
                          G
Beside you till death do we part

           C                              D7
Beside you proudly we'll walk down the aisle
                          G
To start a new world for us two
            C                               D7
The love we share will grow through the years
                                  G
For this happiness I owe all to you
```
