Between Fire And Water-Hank Snow
Author:Sol Marcus, Eddie Seller, Ralph Care
[3/4 time]

```
C                              F          D7
You're mine for awhile till a new face appears
    G7                          C
And then you're no longer with me
                           F           D7
They call me a fool and laugh at my tears
    G7                        C
For they know I'll never be free

                          F
Between fire and water that's where you got me
      C                              G7
I get burned every time I'm with you
        C                F
Between fire and water I cry an ocean
      C                G7          C
Cause without you I'm bluer than blue

                          F            D7
My love cannot die if you break my heart
     G7                        C
I'll want you the rest of my days
                        F           D7
I try to forget that each time I start
    G7                          C
I'm still but a slave to your way
```
