Big River-Johnny Cash

```
G
Now I taught the weeping willow how to cry
                                          A7          D7
And I showed the clouds how to cover up a clear blue sky
       G                                            C
And the tears that I cried for that woman are gonna flood you Big River
     G                    D7          G
Then I'm gonna sit right here until I die

I met her accidentally in St.Paul, Minnesota
                                        A7              D7
And it tore me up every time I heard her drawl southern drawl
       G                                 C
Then I heard my dream was back downstream cavorting in Davenport
      G                        D7       G
And I followed you Big River when you called

Then you took me to St. Louis later on down the river
                                      A7                      D7
A freighter said she's been here but she's gone boy she's gone
  G                                   C
I found her trail in Memphis but she just walked up the block
    G                                   D7           G
She raised a few eyebrows and then she went on down alone

Now won't you batter down by Baton Rouge River Queen roll it on
                                  A7           D7
Take that woman on down to New Orleans  New Orleans
      G                          C
Go on I've had enough dump my blues down in the gulf
    G                     D7        G
She loves you Big River more than me
