Don't Ask Me Why-Jim Reeves
Author:Joan Hager

```
C
Don't ask me why I stand aside
              F           G7
And watch her break every rule
                           C
Why I close my eyes to her schemes and lies
    F        G7        C
And play the part of a fool

Don't ask me why I love her still
          F             G7
After all she's done to me
                       C
After deceiving me and leaving me
       F     G7          C
With a heart full of misery

    F        G7          C
You might as well ask me why I breathe
   F     G7      C
Or why I live at all
  G7          C
I only know I must be there
   F      G7
To answer if she calls

C
Don't ask me why I hang around
      F             G7
Why I keep standing by
                              C
But if you want to know I'll say I love her so
       F       G7              C
Though I don't know the reason why
```
