C          G7                        C
I'll go on loving you don't ask me why
           G7                            C
Don't know what else to do don't ask me why
           G7                            C
How sad my heart would be if you should go
                  G7                      C
Though you're not good for me I want you so

C7           F                           C
It's not the kind of love I've dreamed about
D7                                      G7
But it's the kind that I can't live without
      C                                  G7
You're all I'm longing for don't say goodbye
                                         C
I need you more and more don't ask me why

C7           F                           C
