Don't Come Home A Drinkin'-Loretta Lynn
Author:Loretta Lynn and Peggy Sue Wells

```
C                                        G7                  C
Well you thought I'd be waitin' up when you came home last night
                                          D7            G7
You'd been out with all the boys and you ended up half tight
    C                                                 G7              C
But liquor and love they just don't mix leave the bottle or me behind
    F                  C             G7              C     C7
And don't come home a drinkin' with lovin' on your mind

   F                                                  C
No don't come home a drinkin' with lovin' on your mind
     F                              C                   G7
Just stay out there on the town and see what you can find
      C                                          G7                  C
Cause if you want that kind of love well you don't need none of mine
   F                  C             G7              C
So don't come home a drinkin' with lovin' on your mind

                              G7                   C
You never take me anywhere because you're always gone
                                    D7              G7
And many a night I've laid awake and cried here all alone
     C                              G7              C
Then you come in a kissin' on me it happens every time
   F                  C             G7              C    C7
No don't come home a drinkin' with lovin' on your mind

Repeat #2

   F                  C             G7              C
So don't come home a drinkin' with lovin' on your mind
```
