Don't Let Her Know-Buck Owens

```
C                          F
Lips  make a smile  on my face
G7                                  C
Eyes  don't let her see you  shed a tear
                                      F
Heart  don't let her hear you  skip a beat
    G7                                  C
And pride  don't let her know  how much I care
              F                    G7               C
Don't let her know  don't let her know  how much I care

                                    F
Laugh  dance and sing  so she won't notice
    G7                               C
The hurt  that's still burning  deep inside
                                   F
And don't  let her see  the way I tremble
G7                                 C
Don't  let her know  how much I cried
              F                    G7
Don't let her know  don't let her know
              C
How much I've cried
```
