Don't Let Me Touch You-Marty Robbins
Author:Marty Robbins and Billy Sherrill

```
C           Dm         G7              C
Guess who I saw today  and I asked him about you
          Dm                  G7             C
I saw your new love and it was plain he cares about you
        Dm    G7         C
But I'll wait  until he's out of town
          Dm           G7
Then I'll call you up  and want to come around

                  C                            Dm
But don't let me touch you don't let me get close to you
                                      G7              C
Though I might say nice things and I might bring a rose to you
              F                 Am                   F
There's just a chance your old romance might burn anew
             C          G7                           C
Don't let me touch you  don't let me get close to you

G7           C                           Dm
Don't let me touch you don't let me get close to you
                                      G7              C
Though I might say nice things and I might bring a rose to you
              F                 Am                   F
There's just a chance your old romance might burn anew
             C          G7                           C
Don't let me touch you  don't let me get close to you

G7                 C
Don't let me touch you
```
