**Endless Sleep-Hank Williams Jr.**
**Author:Judy Reynolds and Dolores Nance**

```
C
The night was black rain falling down
                         G7      C
Looked for my baby she's nowhere around

I traced her footsteps down to the shore
                       G7   C
Afraid she's gone for ever-more

  F
I looked at the sea and it seemed to say
C                      G7   C
I took your baby from you away
F
I heard a voice crying in the deep
C                       G7      C
Come join me baby in my endless sleep

Why did we quarrel why did we fight
                     G7      C
Why did I leave her alone tonight

That's why her footsteps ran into the sea
                       G7        C
That's why my baby has gone from me

Repeat #2

Ran in the water heart full of fear
                        G7      C
There in the breakers I saw her near

Reached for my darling held her to me
                        G7    C
Stole her away from the angry sea

F
Well I looked at the sea and it seemed to say
C                       G7  C
You took your baby from me away
F
My heart cried out she's mine to keep
C                       G7      C
I saved my baby from an endless sleep
```
