Falling Back to You-Webb Pierce
Author:Webb Pierce and Bill Phillips

```
C          F                          C
Yes I keep falling back to you what else can I do
       F                        G7                          C
I keep falling back to you I can't forget the past we knew
                              C7    F
So many times I've had you on my mind
  G7                                 C
It seems I just can't leave the past behind

                                     F
I know you've been untrue dear but oh what can I do
    G7                                                     C
For every time the sun goes down I fall right back to you
          F                          C
Yes I keep falling back to you what else can I do
       F                        G7                          C
I keep falling back to you I can't forget the past we knew

                              C7    F
So many times I've had you on my mind
   G7                                 C
It seems I just can't leave the past behind
                                     F
I know you've been untrue dear but oh what can I do
    G7                                                     C
For every time the sun goes down I fall right back to you
