Far Far Away-Roy Orbison
Author:Don Gibson

```
C                                F
Far far away is my love of yesterday
      C                          G7
She's gone gone gone gone from me from me
C                                 F
Far far away is my life my love my way
       C
Wonder where where where where where
   G7            C
Oh where can she be

Days endless days nights dark dismay
           Am     F     G7
Lonely I'm lonely where can she be
C                                 F
Far far away is my love of yesterday
       C
Wonder where where where where where
   G7            C
Oh where can she be

                                  F
Far far away is my love of yesterday
      C                          G7
She's gone gone gone gone from me from me
C                                 F
Far far away is my life my love my way
       C
Wonder where where where where where
   G7            C
Oh where can she be

Where where where where where
   G7            C
Oh where can she be
```
