Feeling The Weight Of My Chains-Cal Smith
Author:Author:Jimmy Payne

```
G                                C
I nearly made it all the way to work this morning
                   G
Then I changed my mind

There's an empty feeling in my soul
       C                                  G
That's crying for a lifetime of marking time

         D7                                C
I don't know if it's too late to find success
                          G
Or if my life can take the change

But I'm not getting any younger
         D7                           G
And I'm feeling the weight of my chains

                                 C
My woman waits at home for me inside
                         G
The safety of an aging dream

She goes on believing in some
D7                               G
Promises that she ain't never seen

    D7                                        C
And it would break her heart if she knew how
                                 G
My thoughts are tortured by the strain

God knows that I love her
         D7                             G
I'm just feeling the weight of my chains

                                        C
I'm not looking for that pot of gold beyond
                          G
Some faded rainbow in the sky
                                       C
I'm just trying hard to feed a hungry dream
                           G
That's trying hard to stay alive

    C
But sometime I feel like giving up
                            G
When all my efforts seem in vain

But somehow I'll keep on trying
         D7                           G
I'm just feeling the weight of my chains

Lord knows I'll keep on trying
         D7                           G
I'm just feeling the weight of my chains
```
