Final Affair-Jim Reeves

```
C          G7      C
This is my final affair
              F          C
It's over and now I don't care
                       G7
I've been in love and I found
                                  C
It hurts when your heart's kicked around

           G7      C
This is my final romance
            F          C
I know it's not worth a chance
                    G7
I'm bluer than I was before
                    C
I won't fall in love anymore

         F              C
It's too much to ask of someone
   G7                                C
To give their love their heart their all
   F                   C
To someone who's only pretending
    D7                          G7
And calls you a fool when you fall

C          G7      C
This is my final romance
            F          C
I know it's not worth a chance
                    G7
My heart's beyond all repair
                    C
And this is my final affair
```

Repeat # 3 & 4
