Foggy River-Jean Sheppard
Author:Fred Rose

```
G
Your love is colder than a foggy river
D7                        G
Flowing over a heart of stone

You left me stranded on this foggy river
D7                     G
Drifting helpless and alone

C
Can't escape this broken heart of mine
G                      D7
There's no freedom anymore
   G
Oh heaven help me on this foggy river
D7                         G
Help me find the distant shore

There's no tomorrow on this foggy river
D7                    G
Only memories linger on

A mist of sorrow chills this foggy river
D7                    G
Everything I love is gone

C
I always knew some day you'd let me down
G                         D7
I've got troubles on my mind
G
Guess I'm doomed to sail this foggy river
D7                        G
Till I leave your love behind
```
