Fool About You-Hank Williams
Author:Ralph C. Hutcheson

```
C
Like a hog a rootin' up under a fence

Like a flop-eared mule that ain't got no sense
     C7                F
I've been a fool about you  for way too long
                       G7
I've been a fool about you   but now I'm gonna get gone

We fight and we fuss like a dog and a cat

I'll tell you right now I've had enough of that
     C7                F                 C
I've been a fool about you  for way too long
                       G7                      C
I've been a fool about you  but I'm gonna get gone

Well I said I would leave if you didn't change

Baby it's time for me to rearrange
     C7                F               C
I've been a fool about you for way too long
                       G7                          C
I've been a fool about you but now I'm gonna get gone

I'm gettin' sick and tired of the same ole bull

I'll tell you right now  Lord my bucket's 'bout full
     C7                F               C
I've been a fool about you for way too long
                       G7                          C
I've been a fool about you but now I'm gonna get gone
```
