Fool No1-Brenda Lee
Author:Kathryn R. Fulton

```
C    G7              C
Am I Fool #1 or am I Fool #2
G7                   C
How many other girls have been fooled by you
  F                      C
I suppose that the number is far from being small
         G7                              C
And I'll bet that I'm the biggest fool of all

F                               C
If I had the chance  I guess I'd do it all again
       G7                          C              C7
I'd go down that same ole road even knowing at the end
           F                                      C
You'd leave me when your heart hears a new love call
     G7                                  C
So I guess that I'm the biggest fool of all
```
