Forgive Me Dear-Faron Young
Author:George Jones and Faron Young

```
C
I lost your love and started drinking
       F                 C
Trying hard to stop from thinking
                                        G7
Then I found that it was not the thing to do
        C
I can't stop my heart from throbbing
         F                C
Couldn't ease the pain by sobbing
                           G7              C
Forgive me dear and I will always do what's right

        G7
It's my fault my heart is broken
      F                  C
Angry words that we have spoken
                                    G7
I'm so sorry for now I have seen the light
       C
I only hope that you still love me
           F              C
Cause I'll swear by stars above me
                           G7              C
Forgive me dear and I will always do what's right

Now I see that I was mistaken
       F               C
And my heart is slowly breaking
                                          G7
Now I know that I was wrong right from the start
      C
Let's renew our old romance dear
       F                    C
Please just give me one more chance now
                           G7              C
Forgive me dear and I will always do what's right

Repeat #2
```
