Forgive Me My Heart-Ray Price
Author:Dan Hoffman and Chuck Woolery

```
C                                G7
Hello heart it's me again do you remember
                                                C
I was the one that caused you all that bitter pain
                                              F
I promised then if you would just keep on beating
    C             G7                          C
I'd never put you through this kind of hurt again

               F
But she keeps burning on my mind
    C                    A7
And I don't know what to do
D7                              G7
Forgive me heart I know what I promised you

C                                                 G7
Get ready heart now brace yourself I've got to call her
                                                     C
And though she hurt me I've got to know the reason why
                                             F
She came into my life and said she loves me
    C           G7                    C
And walked away didn't even say goodbye

Repeat #2

             F
I don't know where to draw the line
         C                  A7
Like the blind leading the blind
           D7      G7                 C   A7
Forgive me heart I know you love her too
           D7      G7                C
Forgive me heart I know I promised you
```
