Four Letter Fool-Moe Bandy
Author:Kallie Jean

```
C                              G7
I had everything in my favor  under God's blue sky
                               C
Your good love and a baby girl homemade apple pie
                                 F
A dog a cat two cars and a boat a home and a piece of land
    G7                                                    C
And plain old ordinary everyday aims I had the world in my hands

                                    G7
Just a few forbidden pleasures  can destroy a lifetime thing
                                  C
Once it's gone you can't rebuild love with shattered dreams
                                     F
It was happening all around us then it happened to me and you
   G7                                                          C
In plain old ordinary everyday aims I was nothing but a four letter fool

    D7                          G7
You used to call me honey and remembering makes me cry
  D7                               G7
I never meant to hurt you and it makes me wanna die
     F
Your heart just won't forgive me but I can't stop loving you
   G7                                                          C
In plain old ordinary everyday aims I was nothing but a four letter fool

   G7                                                          C
In plain old ordinary everyday aims I was nothing but a four letter fool
